## 1 CONTEXT

## **Defining Relationship And Sex Education (RSE)**

The DfE guidance defines RSE as "lifelong learning about physical, moral and emotional development. It is about the understanding of the importance of marriage and family life, stable and loving relationships, respect, love and care. It is also about the teaching of sex, sexuality and sexual health". It is about the development of the pupil's knowledge and understanding of her or him as a sexual being, about what it means to be fully human, called to live in right relationships with self and others and being enabled to make moral decisions in conscience. The DfE identifies three main elements: "attitudes and values, personal and social skills, and knowledge and understanding".

## **Statutory Curriculum Requirements**

We are legally required to teach those aspects of RSE which are statutory parts of National Curriculum science. There is also a separate requirement for maintained secondary schools to teach about HIV, AIDS and sexually transmitted infections.

However, the reasons for our inclusion of RSE go further.

#### Rationale

"I have come that you might have life and have it to the full" (Jn. 10. 10)

We are involved in relationships and sex education precisely because of our Christian beliefs about God and about the human person. The belief in the unique dignity of the human person made in the image and likeness of God underpins the approach to all education in a Catholic school. Our approach to RSE therefore is rooted in the Catholic Church's teaching of the human person and presented in a positive framework of Christian ideals.

At the heart of the Christian life is the Trinity, Father, Son and Spirit in communion, united in loving relationship and embracing all people and all creation. As a consequence of the Christian belief that we are made in the image and likeness of God, gender and sexuality are seen as God's gift, reflect God's beauty, and share in the divine creativity. RSE, therefore, will be placed firmly within the context of relationship as it is there that sexuality grows and develops.

Following the guidance of the Bishops of England and Wales and as advocated by the DfE (and the Welsh Assembly Government), RSE will be firmly embedded in the PSHCE framework as it is concerned with nurturing human wholeness and integral to the physical, spiritual, emotional, moral, social and intellectual development of students. It is centred on Christ's vision of being human as good news and will be positive and prudent, showing the potential for development, while enabling the dangers and risks involved to be understood and appreciated.

All RSE will be in accordance with the Church's moral teaching. It will emphasise the central importance of marriage and the family, whilst acknowledging that all students have a fundamental right to have their life respected whatever household they come from, and support will be provided to help students deal with different sets of values.

#### Values and Virtues

Our programme enshrines Catholic values relating to the importance of stable relationships, marriage and family life. It also promotes those virtues which are essential in responding to the God's call to love

others with a proper respect for their dignity and the dignity of the human body. The following virtues will be explicitly explored and promoted: faithfulness, fruitfulness, chastity, integrity, prudence, mercy and compassion.

## Aim of RSE and the Mission Statement

Our Mission Statement commits us to the education of the whole child (spiritual, physical, intellectual, moral, social, cultural, emotional) and is focused on 'those children entrusted to our care'. We believe that RSE is an integral part of this education. Furthermore, our school aims state that we will endeavour to raise students' self-esteem, help them to grow in knowledge and understanding, recognise the value of all persons and develop caring and sensitive attitudes.

It is in this context that we commit ourselves, in partnership with parents, to provide children and young people with a "positive and prudent sexual education" which is compatible with their physical, cognitive, psychological, and spiritual maturity, and rooted in a Catholic vision of education and the human person.

## **Objectives**

To develop the following attitudes and virtues:

- reverence for the gift of human sexuality and fertility;
- respect for the dignity of every human being in their own person and in the person of others;
- joy in the goodness of the created world and their own bodily natures;
- responsibility for their own actions and a recognition of the impact of these on others;
- recognising and valuing their own sexual identity and that of others;
- celebrating the gift of life-long, self-giving love;
- recognising the importance of marriage and family life;
- fidelity in relationships.

To develop the following personal and social skills:

- making sound judgements and good choices which have integrity and which are respectful of the individual's commitments;
- loving and being loved, and the ability to form friendships and loving, stable relationships free from exploitation, abuse and bullying;
- managing emotions within relationships, and when relationships break down, with confidence, sensitivity and dignity;
- managing conflict positively, recognising the value of difference;
- cultivating humility, mercy and compassion, learning to forgive and be forgiven;
- developing self-esteem and confidence, demonstrating self-respect and empathy for others;
- building resilience and the ability to resist unwanted pressures, recognising the influence and impact of the media, internet and peer groups and so developing the ability to assess pressures and respond appropriately;
- being patient, delaying gratification and learning to recognise the appropriate stages in the development of relationships, and how to love chastely;
- assessing risks and managing behaviours in order to minimise the risk to health and personal integrity.

To know and understand:

- the Church's teaching on relationships and the nature and meaning of sexual love;
- the Church's teaching on marriage and the importance of marriage and family life;
- the centrality and importance of virtue in guiding human living and loving;

- the physical and psychological changes that accompany puberty;
- the facts about human reproduction, how love is expressed sexually and how sexual love plays an essential and sacred role in procreation;
- how to manage fertility in a way which is compatible with their stage of life, their own values and commitments, including an understanding of the difference between natural family planning and artificial contraception;
- how to keep themselves safe from sexually transmitted infections and how to avoid unintended pregnancy, including where to go for advice.

#### <u>Outcomes</u>

#### Inclusion and Differentiated Learning

We will ensure RSE is sensitive to the different needs of individual students in respect to their different abilities, levels of maturity and personal circumstances (for example their own sexual orientation, faith or culture) and is taught in a way that does not subject students to discrimination. Lessons will also help children to realise the nature and consequences of discrimination, teasing, bullying and aggressive behaviours (including cyber-bullying), use of prejudice-based language and how to respond and ask for help. In looking at these questions, it is important to draw links to the school's safeguarding and SEN policies.

This policy takes full account of the school's legal obligations and the latest DfE 'Sex and Relationship Education Guidance' (2000) (September 2013 guidance www.gov.uk refers to SRE Guidance document July 2000 DFEE 0116/2000).

The policy recognises the contents of 'Relationships Education, RSE and PSHE' Policy paper – (March 2017). It will be revised prior to the normal review date should there be any changes to the government guidance. At the time of reviewing this policy the government has announced plans to fully review RSE in schools for teaching by 2019. This will include the introduction of the new subject of 'relationships education' in primary school and renaming the secondary school subject 'relationships and sex education', to emphasise the central importance of healthy relationships.

The 'Every Child Matters' agenda is considered in relation to this policy and to the delivery of the RSE curriculum. Unicef's Rights, Respect, Responsibility ethos is embedded within the curriculum. In addition, it is becoming increasingly important to recognise the importance of e-safety as an integral part of RSE.

## 2 WHAT IS RSE?

The term relationships and sex education – RSE – is used in this policy rather than sex education. This is to stress that our approach goes beyond provision of biological information to also focus on clarifying attitudes and values, and developing self-esteem and the skills to manage relationships.

According to the latest DfE guidance RSE is: '... lifelong learning about physical, moral and emotional development. It is about the understanding of the importance of marriage for family life, stable and loving relationships, respect, love and care. It is also about the teaching of sex, sexuality and sexual health' *DfE 'Sex and Relationship Guidance', 2000 (September 2013 guidance).* The guidance suggests that RSE should have three main elements as follows:

#### Knowledge and understanding

- Learning and understanding physical development at appropriate stages
- Understanding human sexuality, sexual health, emotions and relationships

- Learning about contraception and a range of local and national sexual health advice, contraception and support services
- Learning the reasons for delaying sexual activity, the benefits to be gained from such delay
- The avoidance of unplanned pregnancy

#### Attitudes and values

- Learning the importance of values, individual conscience and moral considerations
- Learning the value of family life, marriage and stable and loving relationships for the nurture of children
- Learning the value of respect, love and care
- Exploring, considering and understanding moral dilemmas
- Developing critical thinking as part of decision making

#### Personal and social skills

- Learning to manage emotions and relationships confidently and sensitively
- Developing self-respect and empathy for others
- Learning to make choices based on an understanding of difference and with an absence of prejudice
- Developing an appreciation of the consequences of choices made
- Managing conflict
- Learning how to recognise and avoid exploitation and abuse.

De La Salle addresses these three components through:

- The taught RSE programme
- Pastoral support for students who experience difficulties
- Provision of appropriate information through leaflets and books in the library and the display of posters
- Involvement of other agencies e.g. school nurse

#### 3 WHY RSE?

#### Legal Obligations

Maintained secondary schools in England and Wales have a legal responsibility to provide a sex education programme. They also have a responsibility to keep an up to date written statement of the policy they choose to adopt and this must be available to parents. Section 1 of the Education Reform Act 1988 places a statutory responsibility upon schools to provide a broad and balanced curriculum which promotes the spiritual, moral, cultural, mental and physical development of students at the school .

Our school relationships and sex education programme will:

- Provide accurate information and combat ignorance, prejudices etc
- Develop mutual respect and care for others
- Provide a programme of study addressed through PSHCE schemes of work and RSE drop down days

In compliance with requirements, at De La Salle our up-to-date written policy statement is available to parents. The DfE Sex and Relationships Education Guidance 2000, the National Curriculum PSCHE and Citizen guidance and the National Healthy Schools Standard support this legislation.

## The Needs of Young People and the Roles of School

The overall aims of the school and National Curriculum are:

- 1. To provide opportunities for all students to learn and to achieve;
- 2. To promote students' spiritual, moral, social and cultural development and prepare all students for the opportunities, responsibilities and experiences of life.

The aim is to prepare students to cope with the physical and emotional challenges of growing up, and to give them an elementary understanding of human reproduction. The DfE 'Sex and Relationship Guidance' (2000) (September 2013 guidance) recommends that 'Effective sex and relationship education is essential if young people are to make responsible and well informed decisions about their lives'. The school has a key role, in partnership with parents/carers, in providing RSE. Research has shown that young people who feel good about themselves, and are knowledgeable and confident about relationships and sex, are more likely to be more discerning in their relationships and sexual behaviours and to have fulfilling relationships. 'Research demonstrates that good, comprehensive sex and relationship education does not make young people more likely to enter into sexual activity. Indeed it can help them learn the reasons for, and the benefits to be gained from, delaying such activity'.

# National and Local Support and Guidance for Schools to Develop RSE

Rates of teenage pregnancy, abortion and sexually transmitted infection in the UK are among the highest of all European countries. The Government has developed a comprehensive strategy to change this situation and RSE for students in both primary and secondary school is seen, alongside other initiatives, as a key element. 'We must give teenagers the confidence and the information so they don't feel compelled to have sex. No one should become pregnant or contract a sexually transmitted infection because of ignorance'. Tony Blair in 'Teenage Pregnancy', Social Exclusion Unit Report, June 1999.

# 4 A MORALS AND VALUES FRAMEWORK

Our approach to RSE will be conducted within a clear morals and values framework based on the following principles:

- The value of stable and loving relationships
- Respect, understanding and empathy towards others who may have different backgrounds, cultures, sexuality, feelings and views
- The development of relationships, including sexual relationships, based on mutual consent, rather than coercion
- The right not to be abused by other people or be taken advantage of
- The right of people to follow their own sexuality, within legal parameters

We also believe that students have an entitlement to:

- Age and circumstance appropriate RSE
- Access to help from trusted adults and helping services.

RSE involves consideration of a number of sensitive issues about which different people may hold strong and varying views. The school's approach to RSE will be balanced and take account of, and be sensitive to, different viewpoints but will not be based on personal bias. We shall endeavour to have an approach that is educational, rather than one based on propaganda.

## 5 EQUAL OPPORTUNITIES

Young people may have varying needs regarding RSE depending on their circumstances and background. The school strongly believes that all students should have access to RSE that is relevant to their particular needs. To achieve this, the school's approach to RSE will take account of:

## A: The needs of boys as well as girls

Girls tend to have greater access to RSE than boys, both through the media (particularly teenage magazines) and the home. We will consider the particular needs of boys, as well as girls, and approaches that will actively engage them. We shall also be proactive in combating sexism and sexist bullying.

## B: Ethnic and cultural diversity

Different ethnic and cultural groups may have different attitudes to RSE. The school will consult students and parents/carers about their needs, take account of their views and promote respect for, and understanding of, the views of different ethnic and cultural groups.

## C: Varying home backgrounds

We recognise that our students may come from a variety of family situations and home backgrounds. We shall take care to ensure that there is no stigmatisation of children based on their home circumstances.

## D: Sexuality

On average, about 2-3% of our students will go on to define themselves as lesbian, gay, bi-sexual or transgender (LGBT). Students may also have LGBT parents/carers, brothers or sisters, other family members and/or friends. All our students will meet and work with LGBT people. Our approach to RSE will include sensitive, honest and balanced consideration of sexuality.

Our pastoral support will take account of the needs of LGBT students. We shall also actively tackle homophobic bullying.

#### E: Special educational needs

We shall take account of the fact that some students may have learning, emotional or behavioural difficulties or physical difficulties that result in particular RSE needs.

## 6 A WHOLE SCHOOL APPROACH

A whole school approach will be adopted to RSE that actively involves the whole school community. Delivery is through planned aspects within science and PSHCE, plus discussion of moral and social ethical issues which may arise from apparently unrelated topics in other National Curriculum subjects. As long as discussion takes place within the context of the subject being taught it will not be considered part of the RSE programme, and therefore not subject to parental right of withdrawal.

All groups who make up the school community have rights and responsibilities regarding RSE. In particular:

#### Headteacher - Mr A. Rannard

The Headteacher takes overall responsibility for this policy and its implementation and for liaison with the Governing Body, parents and the Local Authority, also appropriate agencies.

## PSHCE Co-ordinator - Miss K. Davies

The co-ordinator with the Headteacher has a general responsibility for supporting other members of staff in the implementation of this policy and will provide a lead in the dissemination of the information relating to relationships and sex education and the provision of in-service training.

## Parents

Parents are the key people in teaching their children about relationships and sex by:

- Maintaining the culture and ethos of the family
- Helping their children cope with the emotional and physical aspects of growing up
- Preparing them for the challenges and responsibilities that sexual maturity brings.

Parents need to know that the school's relationships and sex education programme will compliment and support their role as parents and that they can be actively involved in the determination of the school's policy. Parents will be encouraged to support the school's RSE and will have access to this policy.

The co-ordinator will also make available the materials used in lessons to parents, on request, and arrange for any appropriate information meetings. It is their statutory right to look at the resources used to deliver the curriculum.

Parents/carers have a legal right to view this policy and to have information about the school's RSE provision. The school's approach to RSE will encourage dialogue between parents/carers and their children. Before each year group embarks upon its RSE programme, parents are informed by letter of their right to withdraw their child from RSE lessons (if appropriate) and given an overview of the topics the child will be covering. Parents are also reminded that they can have a copy of the school's RSE Policy on request, from the school office. Parents are also told that they can request to preview appropriate teaching resources that will be used in the delivery of their child's RSE. Parents have a right to withdraw their children from sex education lessons which fall outside those aspects covered in the National Curriculum science. It is important that a parent who requests that their child be withdrawn from RSE lessons should appreciate the impact of the social and emotional aspects of such exclusion, as it is likely that students will discuss the content of the RSE lessons outside the classroom. Parents will be advised via letter annually for Y7 – 11.

#### Parental Partnership

Under the Education Act 1993, parents have the right to withdraw their children from all or part of the RSE programme. Parents wishing to exercise that right are asked to make an appointment to meet their child's Head ofYear/Pastoral Support Manager. Once a child has been withdrawn they cannot take part in later RSE without parental approval. The school will seek and take account of parent/carer views and endeavour to adopt a partnership approach with parents/carers. This will periodically include information/education workshops for parents/carers.

#### <u>Staff</u>

RSE is a whole school issue. Staff have been included in the development of this policy and all staff should be aware of the policy and how it relates to them.

The senior leadership team (SLT) will endeavour to support the provision and development of RSE in line with this policy by providing leadership and adequate resourcing.

## Teaching Staff

Not all staff are involved in the school's RSE provision. The vast majority of them teach RSE through the PSHCE programme and some through science and other curriculum areas. However, all teachers play an important pastoral role by offering support to students.

Any teacher can be approached by a learner who experiences a difficulty regarding relationships and sex issues.

Teachers will be consulted about the school's approach to RSE and aided in their work by provision of resources, background information, support and advice from experienced members of staff and access to appropriate training. Non-teaching staff may be involved in a supportive role in some RSE lessons and also play an important, informal pastoral support role with students. They will also have access to information about the RSE programme and supported in their pastoral role.

#### Teaching approaches

Students receive information through a variety of approaches to enable moral issues to be explored through discussion and to acquire appropriate skills. The GROWTH Mindset approach should always be adopted. Where appropriate the involvement of health professionals will be encouraged, in particular when information regarding contraception is to be delivered.

#### Student Grouping

Students are taught in mixed ability and gender form groups. However, some of the drop-down days or sessions are taught in gender-defined groups for certain topics although this is avoided if possible.

## Governors – Link Governor – Mrs T. Sims

Governors have responsibilities for school policies. They will be consulted about the RSE provision and policy and have regular reports at governors' meetings.

#### **Outside Agencies**

Outside agencies and speakers are involved in input to RSE lessons and as points of referral as support services for students. The school nurse plays a key role in RSE both in terms of input into lessons and provision of pastoral support for students. The school will work in ongoing consultation and partnership with the school nurse and offer drop in sessions for secondary students.

The school will only work with agencies and speakers who are appropriate to learner needs. We shall work in partnership with them and jointly plan their work within the school. The school will also promote relevant helping agencies to which students can gain access.

#### Students

Students have an entitlement to age and circumstance appropriate RSE and to pastoral support. They will be actively consulted about RSE needs and their views will be central to developing the provision.

## 7 THE TAUGHT RSE PROGRAMME

We are in the process of adopting PiXL's 'Character and Culture' programme in PSHCE. The RSE programme will be delivered as part of the school's approach to PSHCE. Curriculum and Delivery of RSE is detailed in Appendix 1.

# Ground Rules for Teaching of RSE Answering Students' Questions

The school believes that students should have opportunities to have their genuine questions answered in a sensible and matter-of-fact manner. However, occasionally a student may ask a particularly explicit, difficult or embarrassing question in class. Teachers will use their skill and discretion to decide about whether to answer questions in class and, if so, how. They will establish clear parameters of what is appropriate and inappropriate in class by discussing ground rules with students and by taking an approach that encourages students to be mature and sensible. A question box will be provided while the RSE programme is being delivered and the students will be told that if there are any questions considered too explicit for that age group, they should be placed in the box to be answered later. The judgement about which questions could or could not be answered would be based on whether or not it was closely relevant to the programme the school has decided upon.

# Confidentiality

Staff, parents and students need to understand school procedures when presented with certain issues. Students will be made aware that some information cannot be held confidential, and made to understand that if certain disclosures are made, certain actions will ensue. At the same time, students will be offered sensitive and appropriate support. The following procedures will be adhered to by all adults:

- i) Disclosure or suspicion of possible abuse the school's child protection procedures will be invoked (see relevant policy)
- ii) Disclosure of pregnancy or advice on contraception bearing in mind the Fraser Guidelines. Staff should always seek the advice of the school's safeguarding lead, Mr Ross or his deputy, Mrs De'Ath.

## Language

During the RSE lessons, the correct terms for all body parts and functions will be used. The approach to potentially controversial and sensitive issues. All staff are aware that everyone has views on RSE related issues. However, while it is respected that everyone has the right to their own viewpoint, all RSE issues are taught without bias. Topics are presented in a way that considers all viewpoints so that students are able to form their own, informed opinions but are also encouraged to respect the fact that other may have quite different viewpoints. Viewpoints that have a negative impact upon another person or group of people such as prejudice are always challenged.

## **RSE and PREVENT**

The guidelines in this policy are in line with our Lasallian values but also support the British values outlined in the Government's PREVENT strategy. Whilst our particular context we are less exposed to Islamic radicalisation, our students are more vulnerable to far right radicalisation or gang culture. We will be including the Government's new (October 2018) 'Education Against Hate' materials in the schemes of learning over the coming year.

# 8 PASTORAL SUPPORT AVAILABLE FOR STUDENTS

## The Nature of Support Available for Students

The school takes its role in the promotion of students' welfare seriously. Staff endeavour to make themselves approachable and to provide caring and sensitive pastoral support for students in a number of ways. Staff may be approached for help on an individual basis and through the tutorial pastoral system. They offer a listening ear and, where appropriate, information and advice. The school nurse offers a health and support service to students with a weekly drop in session available. Where appropriate, students are referred to the school nurse and/or external helping agencies. The school will keep up to date about the development of local services and national help lines for young people promote their existence for students and endeavour to form working relationships with local agencies that are relevant to student needs.

# **Confidentiality and Informing Parents/Carers**

School staff cannot promise absolute confidentiality if approached by a student for help. Staff must make this clear to students. Child protection procedures must be followed when any disclosures about abuse are made (see also the Confidentiality Policy).

It is essential that all staff who deliver RSE ensure that they always establish the ground rules of their lessons before they begin and that such ground rules are agreed by all present. It is very rare for a learner to request absolute confidentiality. If they do, in situations other than those involving child protection issues, staff must make a careful judgement about whether or not a third party needs to be informed. This judgement will be based upon:

- The seriousness of the situation and the degree of harm that the student may be experiencing
- The student's age, maturity and competence to make their own decisions.

Parents have a right to be informed of any issue which is causing their child concern.

We will always handle this kind of situation with care and consideration. The Headteacher would consider if there are any special circumstances which temper this right. Where it is clear that a student would benefit from the involvement of a third party, staff should seek the consent of the student to do so. If appropriate, staff might inform the third party together with the student. Unless clearly inappropriate, students will always be encouraged to talk to their parent/carer.

# 9 SOURCES OF FURTHER INFORMATION

This policy has drawn on:

- DFES 'Sex and Relationship Education Guidance' (2000)
- SRE and the School's Responsibility (DCSF June 2004)
- PSHE September 2013 Guidance on producing your school's SRE Policy

and should be read in conjunction with the following school policies:

- Anti Bullying Policy
- Child Protection Policy
- Single Equality Policy

Copies of these policies and further information about the delivery of RSE can be obtained from the school.

# RSE Policy Appendix 1

Pupils will learn about the culture, customs and military might of the Romans. From its early beginnings to becoming a Republic and powerful Empire.	Pupils will also study Roman Daily Life and consider the influence the Romans have had on the present day.	Pupils will consider the effects the Fall of the Roman Empire had on Britain and the background to the Norman Conquest.	Pupils will find out how William Conqueror won at the Battle of Hastings and later took control of England – looking at how he dealt with rebellions, his castle building and legal system	Pupils will learn about Medieval Monarchs such as King Edward and the rebellion of William Wallace and King John and the Magna Carta.	Pupils will study medieval society, justice and daily life.
