Music - Year 9 Support Sheet

Arranging a Cover

Create a New Project

- Log in to your BandLab account or sign up if you haven't already

- Click on "Create" to start a new project

- Add tracks for different instruments (e.g., drums, bass, guitar, vocals)

Record Your Music

- Use the built-in recording feature to record your music. You can record live instruments or use virtual instruments

- Click the red record button on the track you want to record

Arrange Your Tracks

- Drag and drop your recorded clips to arrange them in the desired order

- Use the timeline to adjust the length of each clip

Add Effects and Automation

- Click on a track to open the mixer

- Add effects (reverb, delay, etc.) to enhance your sound

- Use automation to control volume, panning, and other parameters over time
